

SWITCHES, SOCKETS & WIRING ACCESSORIES

CRYSTAL®

| **SIMPLICITY**™

| **BOUTIQUE**™

‘THE SMALL DETAILS MAKE THE BIGGEST DIFFERENCE.’

Retrotouch's high quality product range comprises of Rocker, Touch, Remote & Wi-fi Light Switches, Sockets, Wiring Accessories, Thermostats and in ceiling Audio systems in 3 unique ranges.

The Crystal range cleverly combines the latest technology with carefully considered looks. Each unit features glass panels to create a clean and elegant design to suit both modern and classic interiors alike.

The switches and sockets from the Simplicity range feature interchangeable covers, which means that if and when the decor in a room is changed, new covers can simply be purchased, rather than the expense of fitting new ones. The covers are also easy to fit and remove, clipping over the base cover on the wall without the need to unscrew the unit. The covers can be removed whilst decorating to ensure a crisp, clean finish to complete your interiors.

Ideal for anyone looking for an affordable and stylish way to finish their home, office or hotel, the Boutique collection of hotel room solutions are robust, sophisticated and have that premium edge to achieve that special touch to complete any interior.

GLASS ROCKER LIGHT SWITCHES

Take one look at Retrotouch's glass mechanical rocker light switches and you'll see that we stand a cut above the rest.

Our unique design features large easy to use switches, framed by an elegant combination of plain glass or glass with chrome trim. But, that's not all. Retrotouch goes that extra mile and brings this together, in a package that's so streamlined there isn't a screw in sight!

HOME REMOTE HUB - APP CONTROL

Control all your Retrotouch Remote switches using the Retrotouch APP on your phone or tablet

00540

MASTER TOUCH REMOTE

00185

Control up to 27x On/Off or Dimmer switches with one Master Touch Remote. You can also set 2 groups of lights to come on with the press a single button. The remote has a 20M range from a remote switch and all off button.

GLASS WIREFREE LIGHT SWITCHES

ARE YOU IN NEED OF A 2 WAY LIGHT CIRCUIT, BUT DON'T HAVE THE CORRECT WIRING?

Use our Retrotouch Wireless switches and add a 2 way circuit without the need for wires. Our Retrotouch wireless range of light switches are quick to install and use existing electrical wiring. Simply install the Wirefree switch within 10 meters from an existing Retrotouch Crystal Touch & Remote light switch, which is main powered. Then, pair the two switches together wirelessly. You now have a 2 way circuit without having to do any wiring.

Connect upto 4 Wirefree switches to 1 Remote switch	Powered by 9V Battery	Problem solver product
10m (RF) Range from Remote switch	Night LED Indicators	Fits 35mm Back Box
Ideal for Bed sides, porch, conservatory, loft extensions,	Concealed Screws	Easy to install

GLASS PULSE RETRACTIVE SWITCHES

These elegant Retractive switches (push to make or bell push) are ideal for use with home automation systems such as Loxone, Mode or Fibaro.

SIMPLICITY™

SWITCHES & SOCKETS

Simplicity is the ideal choice for any contemporary home. Sleek, modern, streamlined design with a sophisticated look to enhance any room. With four different colour varieties available, you're sure to find a shade to match your room, whatever your style.

The covers are interchangeable, so you can change the look whenever you like. You don't have to worry about your switches not matching if you redecorate, and you won't need any complicated re-wiring to change them.

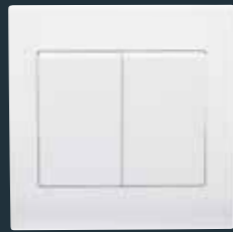

The switches fit easily into a standard 25mm back box. All of our switches are UK-designed, and for further peace of mind, there is a brilliant 10 year guarantee.

At Retrotouch we think 'the small details make the biggest difference.'
